EXECUTIVE ORDER NO. 2000-17

RELATIVE TO THE REORGANIZING AND REALIGNING PARTS OR FUNCTIONS OF FISCAL AND HUMAN RESOURCE MANDATES, PLACING THEM UNDER THE PURVIEW OF THE BUREAU OF BUDGET AND MANAGEMENT RESEARCH.

WHEREAS, the Organic Act of Guam states, “The Governor shall have general supervision and control of all the departments, bureaus, agencies, and other instrumentalities of the executive branch of the government of Guam”; and

WHEREAS, there are many mandates, purposes, and functions that the executive branch has been tasked with performing; the failure of the Legislature to reduce any of these mandates, purposes or functions, while demanding that the executive branch continue to perform despite diminishing budgetary allowances, requires that the Governor invoke his Organic Act powers under the provisions of §1422(c) of the Organic Act which provides: The Governor shall, from time to time, examine the organization of the executive branch of the government of Guam, and shall determine and carry out such changes therein as are necessary to promote effective management and to execute faithfully the purposes of this chapter and the laws of Guam; and

WHEREAS, the government desires to continue to carry out selected mandates, purposes, and functions within an environment of the fiscal constraints brought about by diminishing revenues while there are increasing demands for an increasing diversity of services; and

WHEREAS, effective management requires timely and accurate management information and effective control systems, and government is divided into two basic functions: first, the delivery of goods and services to the people; and second, the governmental infrastructure that ensures that the necessary personnel, equipment and material, and money are available to perform the delivery of the goods and services; and

WHEREAS, the government is committed to improving management information capabilities, through performance reviews and program budgeting, to better assess the short- and long-term needs of the community; and

WHEREAS, the government recognizes that there are considerable sources of Federal grants available and the government can improve the application and coordination of these Federal grants to maximize opportunity; and

WHEREAS, the government is committed to continuous improvement through the empowerment of personnel; and

WHEREAS, the Organic Act of Guam mandates that there are three branches of government of which there is only one Executive Branch, and there is but one merit system as implemented by the Civil Services Rules & Regulations, and the government promotes fairness and equality for all government employees to provide for a highly qualified and competent workforce;
