

OFFICE OF THE GOVERNOR
HAGÁTÑA, GUAM
U.S.A.

EXECUTIVE ORDER NO. 2011-11

**RELATIVE TO AMENDING EXECUTIVE ORDER NO. 2011-10, WHICH
CREATED THE FISCAL RESPONSIBILITY AND TAX REFUND
COMMISSION**

WHEREAS, upon assuming office the new administration has encountered, along with the Public Auditor, a burgeoning \$349 million governmental deficit, \$83 million of which was created in Fiscal Year 2010 alone. Most of this deficit is money owed directly to the people in tax refunds, an amount estimated to be \$269 million. This situation has forced the new administration to curtail spending, request a supplemental budget to sustain operations, and devise a proposal to finance this overwhelming deficit through bond borrowing; and

WHEREAS, taxpayers are historically made to wait years before receiving their tax refunds, money which is rightfully theirs. This money has never been readily refunded to the people timely because the government is forced to use it to fund essential operations (e.g., schools, the hospital, public safety agencies) due to inadequate revenues or cash flow. In fact, the new administration has been straddled with negative cash balances in recent months totaling several millions of dollars monthly; and

WHEREAS, there are simply insufficient revenues in the budget to fully meet both the government's operational and tax refunds obligations simultaneously. However, the need to pay tax refunds and pay down the deficit cannot be made at the expense of public workers and their families. This administration will not order massive layoffs or furloughs to repair the sins of the past. Cuts in expenditures are occurring, yet the government must find solutions to pay tax refunds without crippling already under funded and understaffed government agencies to the point where Guam's people will be deprived of essential government services; and

WHEREAS, the ongoing budget practice of failing to match operating expenditures to revenue levels based in reality has caused a culminating deficit comprised of unpaid tax refund debt. As a result, the General Fund is structurally imbalanced, which is unfair to those taxpayers owed tax refunds and who should not bear the burden of continually floating government operations; and

WHEREAS, it is the responsibility of both the executive and legislative branches to work together through cooperative effort to seek an end to government's historic practice of using the people's tax refunds to fund operational expenses, and to solve this fundamental problem of structural imbalance in the General Fund;

NOW THEREFORE, I, EDWARD J.B. CALVO, *I Maga'lahaen Guåhan*, Governor of Guam, by virtue of the authority vested in me by the Organic Act of Guam, as amended, and the laws of Guam, do order as follows:

Creation of the Fiscal Responsibility and Tax Refund Commission. The Fiscal Responsibility and Tax Refund Commission ("FRTRC") is hereby created with the following mission and membership:
