WHEREAS, the U.S. Department of Energy has awarded federal grants to the Government of Guam under the State Energy Conservation Program, Institutional Conservation Program and Energy Extension Service totalling $204,924 in FY 1982; and

WHEREAS, The U.S. Congress has acted favorably to continue these programs in FY 1983; and

WHEREAS, the Guam Energy Office was created by P.L. 12-100 and more recently sustained by Executive Order 79-10; and

WHEREAS, the Sixteenth Guam Legislature, through P.L. 16-44, created policy which would transfer the Guam Energy Office to the University of Guam Water and Energy Research Institute;

NOW, THEREFORE, I, PAUL M. CALVO, Governor of Guam, by virtue of the authority vested in me by the Organic Act of Guam, do hereby order as follows:

1. In accordance with the legislative mandate expressed in P.L. 16-44, the Guam Energy Office shall immediately begin a process to transfer all federal energy programs to the University of Guam Water and Energy Research Institute. The procedure shall be designed to transfer the Energy Extension Service by December 31, 1982, the State Energy Conservation Program by February 28, 1983, and the Institutional Conservation Program by April 30, 1983.

2. All available funds, equipment, personnel and obligations shall be transferred with the federal programs to the University of Guam.

3. On the dates established above, the University of Guam Water and Energy Research Institute shall be designated as the single state agency for applying for and receiving the respective federal grants.

4. On April 30, 1983, the Guam Energy Office shall cease to exist.
5. The Governor shall determine the salary scale, subject however, to the limitations set forth in P.L. 15-147.

Promulgated at Agana, Guam this 26th day of November, 1982.

PAUL M. CALVO
Governor of Guam

Countersigned by:

JOSEPH F. ADA
Lieutenant Governor
