(1) An employee shall be granted a maximum of two days bereavement leave in full pay status upon the death of an immediate member of the family. Immediate member of the family means spouse, mother, father, guardian, children, sister, brother, mother-in-law and father-in-law. Step and adoptive parents/children are also considered "immediate member of the family."

(2) The employee may use the two days of bereavement leave in any manner which best satisfies his needs, provided that the total of two days (16 hours) of leave are not spread over more than four (4) working days.
(1) An employee who suffers a job-related on-the-job injury will be carried in a full pay status without charge to leave until a qualified physician certifies that the employee is fit for duty.

(2) Absence from duty for medical treatment of a job-related on-the-job injury will be granted with pay and without a charge to leave.

(3) An employee who is able to work part-time light duty while recuperating from a job-related on-the-job injury shall receive full pay without charge to hours not worked during such recuperation period. The employee must present a statement of Incapacitation for full-time duty from a physician to be eligible for the excused absence on a part-time basis.

(4) The Superintendent (Director) may require the employee to submit to examinations by other physicians in order to determine whether an employee is entitled to continue receiving benefits under these provisions. Refusal to allow additional examinations is a basis for revoking the leave pay with status for the job-related on-the-job injury.
