Dear Ms. Ngirairikl:

I am writing in response to your request for information dated May 15, 2020 in which you seek:

"...any RFP, IFB, RFQ, RFI, and all documents, including emails about the homeless shelter project. This should also include payments made for publishing any announcement with media."

The Office of the Governor is not in possession of any RFPs, IFBs, RFQs or RFIs relative to the homeless shelter project.

Enclosed are the following responsive documents:

- Emails originating from Jon Junior Calvo
- Emails originating from Carlo Branch

We note that additional responsive documents were not provided and are exempt from disclosure pursuant to 5 GCA 10108(q).

Please let me know if you have any questions or concerns.

Sincerely,

Subject: GHC Involvement in Operation Safe Haven

Dear Mr. Aguon,

Attached is official notice regarding the involvement of the Guam Homeless Coalition in the proposed Operation Safe Haven.

We wish you the best in this endeavor. Rest assured that the Guam Homeless Coalition continues its work with homeless in different capacities amid COVID-19 restrictions and will continue to respond to direct referrals as needed.
Sincerely,

Re: Withdrawal of Safe Haven Site Management

Dear Mr. Aguon:

The Guam Homeless Coalition hereby withdraws its offer to take the lead on site management of Operation Safe Haven. This decision is made after additional working discussions with our homeless coalition partners and particularly due to observed lack of transparent responses on this push for a Paseo Stadium site.

As background, very early discussions on how to address the coronavirus among a mobile, homeless community focused on recommendations from HUD, CDC, and the Interagency Council on Homeless. Catholic Social Service, as chair of our Strategic Planning Committee, has been providing resource information that recommends best approaches to mitigate the spread of the virus among the homeless in both unsheltered and sheltered settings.

This decision is not one made lightly. We continue to have concerns that from the last two meetings, additional questions are raised and concerns brought forward that were not considered in the planning or addressed by your office. From Thursday’s status meeting, feedback provided that even the DHHS representative had concerns of this planned action. However, it seemed as the decision has already been made given the comments by the Governor’s Chief of Staff that there has been much work already done on the site. Further, input from Homeland Security staff provides that homeless will be assigned 4 to 5 per tent by gender without regard to the main objective – separate spaces for self-quarantine at a stationary site.

Rest assured that the Guam Homeless Coalition continues its work with homeless in different capacities amid COVID-19 restrictions and will continue to respond to direct referrals as needed.

RE: UPDATES WITH THE PROTECTING THE HOMELESS POPULATION

Hafa Adai Governor Leon Guerrero;

I would like to start off by acknowledging and thanking you for your letter dated April 27, 2020, which our office received at the end of day on April 29, 2020. The letter was very general and did not address any of our questions from three previous letters, on what the administration’s plans are with addressing the various issues associated with protecting the homeless population during this pandemic. In a media report this morning, it was stated that the "Safe Haven Project", which is essentially a plan to provide a temporary shelter for the homeless population at the Paseo, has been canceled. With this in mind we have several questions which have been brought to our attention by constituents, and we hope to attain your office's cooperation in addressing. The inquiries are as follows:

- The story reports that the plans for the Paseo location were canceled due to concerns associated with safety and social distancing, and this was determined after maintenance and repair works was being made (possibly completed), and possibly some procurement finalized. So, our first question is, shouldn't the assessment of safety have been determined prior to expending any monies on the repairs and maintenance work?

- We have been inquiring about the administration’s plans to address the homeless situation during this crisis for weeks, hence I would believe that the planning and assessment stages should have at least been completed weeks ago, so what new concerns have risen since that period that led to the halting of the project?

- The costs associated with the repair work, including operational, payroll and procurement costs, will these be incurred by the government of Guam?

- Assuming that there is the intent of seeking reimbursements through the CARES Act relief funds that are presently on island, the question is, will the federal government allow such a reimbursement, knowing that the expenses associated would no longer be deemed as COVID-19 related?
- How much has been expended thus far with this project, and would your office be able to release a detailed listing of the expenses?

- Since no action has been completed for the homeless population since the start of the lockdown, have there been plans for a dedicated testing of the virus for the homeless?

- What happens next, meaning where does the Safe Haven Project go from here, and what are the timelines?

- The media has reported that the government of Guam entered into a contractual relationship with a hotel to procure 389 rooms, to use as a quarantine facility for incoming passengers. Reports indicate that nearly 200 rooms remained vacant yet, were paid for by government funds. Why couldn't the government utilize these vacant rooms as part of the Safe Haven Project? The rooms apparently came with meals and laundry services, which were also procured by the government, making them more feasible for this project. Is there a reason this solution was not on the table? Reports indicate that the former Chief of Staff and other members of your cabinet have utilized the vacant rooms, which were deemed as "quarantine facilities", hence wouldn't it have been more logical if the homeless were provided that space for 14 days?

Our residents merely seek answers to these and many other questions. My office gets several inquiries daily, and it would be irresponsible if we did not seek out the responses to such logical inquiries. Our people are struggling, and sometimes the most ideal means of bringing the community together is by assuring them that their government is clear and transparent. They want an assurance that their taxpayer dollars are being spent wisely and that there are no appearances of questionable spending or activity. We are all in this crisis together, and we look to you for leadership in guiding us through this process.

I hope to get some responses from your office in the next few days to these questions, and I am also open to a discussion on this issue either virtually or telephonically. Thank you very much and wishing you a good and safe weekend.

Respectfully,
James "Jim" Moylan
Senator
