Hi Jane:

I again assure you I write this message to you in good faith. I am hoping that you will agree to meet with me. We could meet over lunch, coffee or I am willing to come see you at your office. I do think this initial meeting will have a better outcome if for this meeting, it just be the two of us.

For the past two months in anticipation of the Supreme Court decision, hundreds of us have met to talk about what we could do in the private sector if Roe was overturned. Although at infancy stages, I feel on our end we could mobilize the various resources needed timely. But in recognizing the resulting need, I envision some form of Public-Private Partnership to provide an agreed to list of services for women and children in our community.

Some examples would be:

1. Raising private funds to encourage adoptions.
2. Raising private funds to encourage a larger foster care family network on island.
3. To consult with specialists to determine what chronic diseases including cancer, are significant among the women of our community.
4. In connection to 3 above, to then engage local providers of care and off-island providers of care so that readily available on Guam are specialists to deal with the chronic diseases on Guam and
5. Attract off-island reputable healthcare systems that can provide specialized care for children.
6. Draft legislation that creates incentives within the private sector for items like stated above.

These are just a few ideas I wanted to talk to you about. If you are interested, I look forward to meeting with you soon.

I will call your office on Monday.

God's blessings always,

Peter
