BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2023-OS-0038]

Proposed Collection; Comment Request

AGENCY: Office of the Under Secretary of Defense for Personnel and Readiness (OUSD(P&R)), Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the OUSD(P&R) announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by July 5, 2023.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy

for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Office of the Deputy Assistant Secretary for Defense for Military Personnel Policy, Office of Military Compensation Policy, ATTN: Mr. Ronald Garner, Pentagon, Washington, DC 20301-1500, or call (703) 693-1059.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Data for Payment of Retired Personnel; DD Form 2656; OMB Control Number 0704-0569.

Needs and Uses: The information collection requirement is necessary to obtain applicable retirement information from Uniformed Service members and allow those members to make certain retired pay and survivor annuity elections prior to retirement from service or prior to reaching eligibility to receive retired pay. The form will also allow eligible members covered by the Blended Retirement System to make a voluntary election of a partial lump sum of retired pay, as required by section 1415 of title 10, United States Code.

Affected Public: Individuals or households.

Annual Burden Hours: 31,988.

Number of Respondents: 127,950.

Responses per Respondent: 1.

Annual Responses: 127,950.

Average Burden per Response: 15 minutes.

Frequency: As required.

Every member of the Uniformed Services who retires or reaches the age of eligibility to begin receiving retired pay, in the case of members of the Reserves and National Guard, will voluntarily complete this form to request retired pay, designate beneficiaries, and make a Survivor Benefit Plan election. In an average calendar year, approximately 127,950 members of the Uniformed Service will complete this form. The spouses of retiring members of the Uniformed Services are only required to complete part V of this form if the Service member declines or reduces his or her level of under the Survivor Benefit Plan.

Dated: April 27, 2023.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Notice of Intent To Prepare an Environmental Impact Statement for an Enhanced Integrated Air and Missile Defense System on Guam

AGENCY: Missile Defense Agency (MDA), Department of Defense (DoD).

ACTION: Notice of intent.

SUMMARY: The MDA is issuing this notice of intent to prepare an Environmental Impact Statement (EIS) to assess the potential environmental impacts associated with an Enhanced Integrated Air and Missile Defense (EIAMD) system for the defense of Guam. The EIS will be prepared in accordance with the National Environmental Policy Act (NEPA) of 1969; the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA; MDA's NEPA Implementing Procedures; U.S. Department of the Army's (Army) NEPA Implementing Procedures; U.S. Department of the Navy's (DoN) Environmental Readiness Program; U.S. Department of the Air Force's (DAF) Environmental Impact Analysis Process; and Federal Aviation Administration's (FAA) NEPA Policies and Procedures. The EIS will evaluate the potential environmental impacts from the proposed deployment and operation of missile defense radars and sensors, missile interceptor launchers, and command and control systems; construction and operation of associated support facilities and infrastructure; and management of associated airspace (hereafter called "Proposed Action"). The MDA is initiating a public scoping period to receive comments on the scope of the EIS including identification of potential alternatives, information, and analyses relevant to the Proposed Action, and the Proposed Action's potential to affect historic properties pursuant to section 106 of the National Historic Preservation Act (NHPA) of 1966.

DATES: The MDA invites comments during the public scoping period beginning with publication of this notice in the **Federal Register**. Comments must be postmarked or

received on or before June 27, 2023 to ensure consideration in the Draft EIS.

ADDRESSES: Written comments should be sent via email to info@EIAMD-EIS.com; via the website comment submission form on www.EIAMD-EIS.com; or by United States (U.S.)

Postal Service to: ManTech International Corporation, Attention: EIAMD EIS Project Support, PMB 403, 1270 N Marine Corps Drive, Suite 101, Tamuning, Guam 96913-4331.

Comments will also be accepted at the public scoping meetings. All comments, including names and addresses, will be included in the administrative record, but personal information will be kept confidential unless release is required by law.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Wright, MDA Public Affairs, at 571-231-8212 or by email to mda.info@mda.mil. Additional information on the Proposed Action can be found at the MDA website: <https://www.mda.mil/system/eiamd.html>.

SUPPLEMENTARY INFORMATION: Within the context of homeland defense, Guam is a key strategic location for sustaining and maintaining U.S. influence, deterring adversaries, responding to crises, and maintaining a free and open Indo-Pacific. An attack on Guam would be considered a direct attack on the United States and would be met with an appropriate response. Current U.S. forces are capable of defending Guam against regional ballistic missile threats. However, regional missile threats to Guam continue to increase and advance technologically. The U.S. Indo-Pacific Command has identified a requirement for a 360-degree EIAMD capability on Guam as soon as possible to address the rapid evolution of adversary missile threats. The purpose of the EIAMD is to support the defense of Guam from cruise, ballistic and hypersonic missile threats. The EIAMD is necessary to meet requirements as directed in the fiscal year (FY) 2022 and FY 2023 National Defense Authorization Acts and to protect Guam as described in this notice.

The MDA, in coordination with Army, DoN, DAF, and FAA as cooperating agencies, is preparing an EIS to evaluate the potential environmental impacts associated with the Proposed Action and a No Action alternative.

The Proposed Action includes the deployment and operation of a combination of components from the MDA, Army, and DoN that would be integrated for air and missile defense. These proposed components include missile defense radars and sensors,

missile interceptor launchers, and command and control systems. The MDA and Army need to strategically locate and integrate the system components at multiple sites around Guam. In the event where DoD property is not available to strategically locate the components on DoD properties or where buffer and safety zone arcs encroach on non-Federal properties, acquisition of appropriate real estate interests on non-Federal property may be needed in a few areas. Site selection is evolving and additional sites may be considered. Additionally, MDA anticipates airspace modification may be necessary at sites where radars would be located. Airspace issues would be coordinated with the FAA.

Associated support facilities and infrastructure (e.g., power plants, fuel storage facilities, and water storage facilities), and life support facilities (e.g., family housing, fire stations, and dining facilities) would also be constructed and operated on these sites to support proposed EIAMD components and accommodate personnel associated with the proposed EIAMD system.

The MDA and Army have conducted extensive siting studies to confirm alternative site selection, optimize system performance, and optimize facility planning and design. The proposed EIAMD components, support facilities and infrastructure, and life support facilities would be distributed across the candidate sites.

The environmental issues and resource areas the MDA would assess in the EIS include, but are not limited to, the following: airspace, air quality, biological resources, cultural resources, environmental justice and protection of children, geological resources, public health and safety, infrastructure and utilities, land use, noise and vibration, socioeconomics, transportation, recreation, visual resources, and water resources. The analysis will include an evaluation of direct and indirect impacts, and will account for cumulative impacts from other relevant activities in the area of Guam.

This public scoping effort also supports compliance with section 106 of the NHPA and its implementing regulations at 36 CFR part 800. As such, the MDA will consult with government officials and other interested parties regarding historic and cultural resources under section 106 of the NHPA, as appropriate. Additionally, the MDA will undertake any other consultations and permitting required by applicable laws or regulations.

The MDA will conduct three in-person open house scoping meetings on

Guam in June 2023. Notification of the meeting locations, dates, and times will be published and announced in local news media to encourage public participation. Access to meeting information can also be found on the MDA website at <https://www.mda.mil/system/eiamd.html>.

The MDA encourages elected officials, government agencies, non-governmental organizations, and interested individuals to participate in the public scoping process for the preparation of this EIS. The public scoping process assists in determining the scope of the EIS including identification of potential alternatives, information, and analyses relevant to the Proposed Action, and the Proposed Action's potential to affect historic properties.

Additional opportunities for public comment will occur after the release of the Draft EIS. The MDA intends to publish the Draft EIS in spring 2024, publish the Final EIS in early 2025, and sign a Record of Decision following the 30-day Final EIS review period.

Dated: May 2, 2023.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2023-OS-0039]

Proposed Collection; Comment Request

AGENCY: Office of the Under Secretary of Defense for Acquisition and Sustainment, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Defense Contract Management Agency announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use
